6. After satisfactory discussion with the buyer on how the gold will be ship, Buyer will pay 7500\$, this is enable the seller to pay for government taxes, certificate of origin fees, insurance, customs clearance and freight costs through Seller's Clearing Agent Account. If the buyer is not comfortable with that, he can fly down here in Cameroon or Tanzania, we do all the documentations, he will check the gold face to face and see the quality and pays the money to our account and take the gold along with him. But if he is ok with the 7500\$ fee then we will do the rest of the documents and travel with the gold, meet him face to face and final payment once the gold is been checked and assayed in out.

7. The Seller or the Seller's representative will accompany the Buyer with the consignment to the Buyer's final destination

8. In the destination the Buyer is responsible for all import taxes from the international airport to the refinery of his home country.

9. After getting the final assay report from the buyer's refinery, the buyer will deduct all cost incurred for the export of the said consignment from Douala to buyer's location and will transfer the full amount of the total value to seller's designated bank account within 3 working days,

10. Upon the confirmation of bank telegraphic transfer (TT) receipt from the seller's bank immediately the ownership pass from the seller to the Buyer,

PAYMENT

TT wire transfer (TWT) from buyer contracted authorized authority account as per instructions from the Seller defined in the FCO. After buyer pays the full payment of goods to the seller, minus incurred costs, the product will then be released to buyer.

SHIPMENT
